Art Unit: 1742

1. The Examiner has carefully considered Applicant's Request for Reconsideration of 9/2/03, but does not find Applicant's argument persuasive. In particular, Applicant has focused on the differences between the method of the pending case and the prior art. However, Applicant has not shown how the tool piece, and more particularly the mating surface, differs between the reference and the pending invention. Accordingly, the Examiner maintains his position.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-25 and 32-63 are rejected under 35 U.S.C. 103(a) as being unpatentable over DE 19634314 (DE'314).

DE'314 discloses the invention substantially as claimed. DE'314 discloses at Fig 2 and accompanying discussion a tool piece comprising:

a first hard metal body (26);

an additional body (25) bonded to the first hard metal body through a mating surface (23) by a high pressure (50×10^7 Pa, col. 5, lines 23-32).

DE'314 discloses wherein the mating surface is asymmetrical and irregular (see Fig. 2).

The selection of the mating surface would be determined by one of ordinary skill based on the overall dimension of the tool piece to optimize the contact surface area between the bodies, and would be selected from known shapes and given ordinary experimentation to determine optimum strength.

Art Unit: 1742

The Examiner notes that additional body is provided as a powder mixture, brought in contact with the green body of the first hard metal body prior to bonding, wherein the additional body being of powder is not precluded by the current claim language.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
